

Safety Reminder

Student Drop-Off: We have noticed that some parents are dropping their children off at the Front Entrance of the school, using the circular driveway. If you are using this area to drop off your child, please note the following:

- This driveway is a fire route. Cars left parked on this driveway are subject to being ticketed by the police, with the traffic tickets carrying significant fines.
- If you are going to drop off your children via the front driveway, so they can enter the school via the front doors, please adhere to the following restrictions, to ensure the safety of the children and the flow of traffic in the driveway:
 - Pull up to the right curb to let your passengers leave your car. Do not Double Park.
 - Always have your passengers exit on the sidewalk side (right side) of your car, so they will not be walking directly into traffic.

If you need to accompany your children into the school, please park in the rear and enter through the Before School Doors before 8:45 a.m., or pull into a non-reserved parking spot (visitor parking) in front of the school.

Finally, the driveway in front of the school is a one-way drive. If you are turning north (left) on Midland when you leave, please pull to the left side of the driveway. This allows vehicles turning south, access to Midland on the right side of the driveway.

If you have any questions, please contact me at your convenience.

Sincerely,

John Healey
Elementary School Principal
